# 1<sup>st</sup> Solution

## Business Trip In China

Visiting exhibitions or inspecting factories in person is always the very first step to launch import business for every buyer.

Our professional guiding team provide you with a journey full of safety, diversity and low cost. We keep you away from language barriers and possible frauds.

You will gain a great many valuable products and supplier information, while enjoying the journey of Chinese culture with fair expenses. Even when after the journey, we will still follow up any useful threads to your business on your behalf. You will get to know about your potential business partner face to face and gain a deeper insight into Chinese culture, which will encourage you look ahead at your import business with unprecedented confidence.

## 2<sup>nd</sup> Solution

### Import Products From China

With the information and confidence obtained from Chinese trip, it's the perfect timing for boosting your import business.

We will find the most suitable suppliers based on your requirement and manage supply chain from collecting samples, testing performance, quality control to International carrier. What's more, in order to fulfill their business goal for some innovated buyers, we provide ample production technology support to new product development. In addition, we also conduct factory audit, procedure supervision and tripartite trade system, to keep buyers away from frauds and dispute in trade business.

## 3<sup>rd</sup> Solution

### Develop the Chinese market

Might your import business grow bigger and bigger, indicating the opportunity of your export business.

China has been and will continue to be the biggest consumer market in the world. If your products or brands have succeeded in your local market, why don't you import them into China? Whether your products are made in China or local specialties in your country, Chinese consumers have strong demand of them with the rapidly growing economy.

HiGlobal made it easier for you. With our support, you can invest Chinese factory and set up Chinese branches and promote your products on Chinese Internet. With the combination of online sales and distributions of multiple channels, you can make some achievements in the great Chinese market.
